MINDFULNESS REMINDER

If you feel overwhelmed just stop.

Focus on what you can hear, see, smell, feel.

Listen to some music or do something that you enjoy just for a moment.

Bring your attention to the now and breath

November full moon

Novembers full moon is known as the Beaver Moon. It peaks in the UK on the 15th November at 21:28.

The last of the 2024 supermoons, it is known as the Beaver Moon due to Native Americans noticing beavers retreating to their lodges for the winter.

This is the full moon of opportunity. If you have been struggling romantically, financially or professionally it is likely things will come to a head and then turn for the better around this time. Keep going and be full of positivity. If an opportunity arises, seize it with both hands!

Psychic Development

Did you know that everyone is born Psychic? Some can also develop mediumship skills.

My 8 week course is an introduction to the psychic world. It is designed to enable you to find out what interests you and what skills you have, in a safe supportive environment.

Once you have completed the course, you are welcome to drop into my fortnightly group where you can meet like minded people and practice what interests you the most.

Online remote course also coming soon!

**Did you know
that you have
full control
during
Hypnotherapy
and can end it
at any point?**

Update from me!

QUETING DOWN WITH 2025 PLANS BEING PUT IN PLACE

After a busy September, October has been very quiet. The fortnightly Psychic Development drop in has been very enjoyable for all and we also had Larissa from A moment of Calm come in and demonstrate sound healing. I would highly recommend it!

Unfortunately the meditation classes have very low numbers attending, often with no one at all. And the Mindfulness & Meditation Course with crafting had to be cancelled due to lack of interest.

I would love your feedback on the well-being groups. What would you like to see? Have you attended and happy to give feedback? Positive and constructive feedback welcome!

In 2025 I am hoping to continue with these classes and am also very excited to be launching Reiki Share! This will be held once a month on a Sunday evening and you need to be level I or above to attend. More details will be published on my website soon.

Have a lovely November and I hope to see you soon! Rebecca

What's on:

Ghost Club

Sunday 3rd November

No need to book, open to anyone over 16

£5

Chatteris Library

What's on:

Trainee Investigator Programme

A 4-week zoom course followed by an in person investigation

6th November £35

8.30pm-9.30pm

Coming up:

Remote Paranormal Investigator course

Coming soon, a complete course for you to do at home in your own time.

Learn everything there is to know about investigating the paranormal

PROTECTION

Protecting yourself before an investigation is vital!

Close your eyes and visualize a beautiful blue or white light coming up around you. See as it covers your entire body and turns into a big bubble of light. As you stand in this bubble nothing can hurt you. If you have time of worry, visualize this bubble again to help.

A-Z of the Paranormal

A is for Anomaly

This is a very common term that is used in day to day life but frequently in the paranormal world.

The official definition is:

anomaly \uh-NAH-muh-lee\ noun. 1 : something different, abnormal, peculiar, or not easily classified : something anomalous. 2 : deviation from the common rule : irregularity.

In the paranormal context if you pick up an anomaly, its something that shouldn't be there and warrants further investigation.

Spotlight on Whittlesey Museum

This small but perfectly formed Museum is based in Whittlesey. Formerly the local fire station and court, this Victorian building has lots to offer.

Having investigated here numerous times, it is very common to come across the delightful soul that is James. He is not a fan of women and can be quite grumpy, often hanging around the end room nearest the forge.

There is also a child who runs around and plays, he is always happy to talk to you!

There is very consistent activity throughout the building and lots of it. making it a brilliant place to investigate.

What's your best paranormal location?

Mine has to be Sharnbrook theatre. The evidence I got from there is something that I still cannot explain.

Poltergeists and very consistent activity captured every time!

Update from me!

DODDINGTON WORKHOUSE

October has been a quieter month with lots going on in my family life. I managed to get out a few times investigating, however.

One location that has always interested me is Doddington Workhouse. Based on the site of Doddington Hospital, most of it was knocked down and is under the current rear car park. However one building does remain along with the energies of the past. Going down one evening to see what I could find, there seems to be a lot of energy around the hedge between the car park and Doddington Court. EMF detector was activating and I am sure I saw someone peek over the hedge! Trick of the light maybe? Who knows, it is worth going back to see what else I can find.

The lane running past the hospital site, Hospital Road, also had activity. The spirit of a young woman looking for her baby appeared to make contact and took me further up the lane towards the garden center. Who is she and what happened to her baby? I need to go back and find out.

I am looking forward to visiting a regular location with Mark from Blackshuck Paranormal and will report back with what we find.

Whatever you are up to during November, stay safe and have fun. Rebecca X
